

Using the CD-ROM

You will need to install Adobe Reader 6.0 or higher version to take full advantage of the Commentary on your computer. If you do not already have this application or the most up-to-date version, you can download it for free at www.adobe.com.

To Download the Commentary to your computer:

1. Insert CD-ROM into CD drive.
2. Open CD-ROM so that you view the contents on the CD-ROM.
3. Copy the folder named "commentary_name.pdf" (e.g., commentary_lev-num.pdf) to your computer (e.g., desktop or some specified folder; we recommend creating a "SH Bible Commentaries" folder in MY DOCUMENTS (PC) or DESKTOP (Mac) in which you save all of the different Commentary files in the same folder; this allows for searches among all of the Commentaries in that particular folder).
